Meeting 10 Minutes

Thursday March 26th 2015

Attendance: Nicole, Madhavi, Mathias, Miguel, Tim, Yibin

Chair: Miguel

Official Meeting Minutes Taken By: Nicole

Start: 11:40 AM

Agenda:

1. Features to implement:

- Integrate Long/Short-Term to GUI
- Precipitation labels
- Max/Min Temp labels for Long-Term
- Add Enter->Select to MyLocations Pane

2. Bugs to fix:

- Air pressure decimal points too big (sometimes)
- Refresh crashes when CurrentWeather = NULL
- Wind direction in degrees instead of N, NE, NW, etc.

Action Items:

Nicole: fix wind direction bug, update UML, standardise field case and comments

Tim: fix other bugs

Madhavi: ensure java-doc style in the project, work on precipitation data

Mathias: work on GUI labels

Yibin: push code to git

Miguel: work on Enter->Select to MyLocations Pane

Next Meeting: TBA.
